

APCD Newsletter Vol 40

# **Report on APCD/JICA Project Phase 2** (August 2007 - July 2012)

## WHAT IS APCD

“Asia-Pacific Development Center on Disability” (APCD) is a regional center on disability and development established in Bangkok, Thailand as a legacy of the Asian and Pacific Decade of Disabled Persons 1993-2002, under joint collaboration of the Ministry of Social Development and Human Security, the Royal Thai Government and Japan International Cooperation Agency (JICA), the Government of Japan.

In collaboration with more than 30 countries in the Asia-Pacific region, APCD is currently managed by the APCD Foundation under the Patronage of Her Royal Highness Princess Maha Chakri Sirindhorn.

APCD is recognized by the United Nations Economic and Social Commission for Asia and the Pacific as a regional center for its Biwako Millennium Framework for Action towards an Inclusive, Barrier-free and Rights-based Society for Persons with Disabilities in the Asian and Pacific Decade of Disabled Persons, 2003-2012.

## WHAT IS APCD/JICA PROJECT PHASE 2

It is estimated that there are over 400 million persons with disabilities (PWDs) in the Asia-Pacific Region according to United Nations Economic and Social Commission for Asia and the Pacific (ESCAP) report 2002. For two decades, considerable efforts have been made to promote full participation and an improved quality of life of PWDs in Asia and the Pacific. Currently, the second Asian and Pacific Decade of Disabled Persons (2003-2012) is rigorously observed to implement “the Biwako Millennium Framework (BMF) for Action Towards an Inclusive, Barrier-Free and Rights-Based Society for Persons with Disabilities in Asia and the Pacific”, which was declared in Otsu city, Japan in October 2002.

Ahead of another decade, in 2000, the Government of the Kingdom of Thailand officially requested the Government of Japan to support the establishment of the Asia-Pacific Development Center on Disability (APCD). In response to the request, the Government of Japan, through the Japan International Cooperation Agency (JICA), decided to implement the APCD project for the duration of five years, starting from August 1, 2002.

In September 2006, the terminal evaluation of the Project, conducted by both Japanese and Thai sides, recognized the high level of achievement and a number of impacts of APCD’s activities. At the same time, it was recommended that: (a) the sustainability of APCD be strengthened; (b) the needs of specific groups of the Deaf and persons with intellectual disabilities be considered; and (c) the inclusion of self-advocates, their families, and other significant stakeholders be further promoted. The Government of the Kingdom of Thailand officially requested further cooperation for APCD from the Government of Japan. In response to the request, the APCD project Phase 2 started in August 2007. Two outputs set for the Project Phase 2 are; 1. More effective and sustainable networking and collaboration are developed among APCD, Focal Point Organizations (FPs), Associate Organizations (AOs) and other relevant organizations. 2. The managerial and administrative capacity of APCD to sustain the internationalized activities is strengthened.

## FOREWORD BY JICA

On behalf of the Japan International Cooperation Agency (JICA), I would like to congratulate the Foundation of Asia-Pacific Development Center on Disability, the National Office for Empowerment of Persons with Disabilities, the Ministry of Social Development and Human Security, all the stakeholders, in particular, persons with disabilities and their supporters on the successful completion of the Asia-Pacific Development Center on Disability (APCD) Project Phase 2. This is a tremendous achievement through the strenuous effort of these people.

APCD Project itself started in 2002 as APCD Project Phase 1 for contributing empowerment of persons with disabilities in the Asia-Pacific region through activities of international training, knowledge management and regional networking. At the end of the Project Phase 1, the Royal Thai Government proposed to continue cooperation as phase 2 for building more effective and sustainable network and collaboration in this region and strengthening capacity of APCD as an internationalized organization, in addition to activities in the Project Phase 1.

As a result of implementation of APCD Project Phase 2, APCD was selected as successful model of South-South Cooperation by Organization for Economic Cooperation and Development (OECD), furthermore, at the General Assembly of the World Bank, APCD was selected as top 6 projects of successful south-south cooperation. In the Project Phase 2, APCD has cooperated with Disabled People's Organizations (DPOs) for establishing regional network such as the CBR Asia-Pacific Network. A total of 6 networks were established by APCD. Now APCD collaborates with such international organizations as the World Health Organization (WHO), the International Labour Organization (ILO) and the Food and Agriculture Organization (FAO). Especially, the United Nation Economic and Social Commission for Asia and the Pacific (ESCAP) is going to identify APCD as the key agency for the proposed new Asian and Pacific Decade of Persons with Disabilities, 2013-2022, as same as the second Asian and Pacific Decade of Disabled Persons, 2003-2012.

JICA has highly evaluated the APCD Project and recognized APCD as a top leading center for development on disability, especially as an organization to be born in "South" with our pride.

I am confident that APCD will continue to utilize those attributes in striving for a barrier-free, accessible and right-based society in the Asia-Pacific region.

**Kazuhiro Yoneda (Mr.)**  
**Chief Representative**  
**Japan International Cooperation Agency (JICA) Thailand**

## APPRECIATION BY APCD

The APCD/JICA Project began on 1 August 2002 with the Royal Thai Government through the Ministry of Social Welfare and Labour, which has now become the Ministry of Social Development and Human Security. And then, the APCD Foundation was established in 2003 with the Royal Patronage of H.R.H. Princess Maha Chakri Sirindhorn.

Since the Royal Thai Government has actively promoted development in the field of disability, the National Office for the Empowerment of Persons with Disabilities (NEP) has been established. The Royal Thai Government has ratified the United Nations Convention on the Rights of Persons with Disabilities (CRPD) in 2008, and adopted a new disability law, such as Quality of Life of People with Disabilities in order to promote inclusive, barrier-free and rights –based society.

During Phase 1 of the APCD/JICA Project (August 2002 to July 2007), a large number of persons with disabilities in Thailand and other Asia and the Pacific countries became empowered and are now national and international leaders on disability and development. They have been collaborating with developing countries in the Asia and Pacific region, in such areas as Community-based Rehabilitation (CBR), Community-based Inclusive Development (CBID), Non- handicapping Environment, ICT Accessibility, Independent Living, and Human Rights.

In Phase 2 of the APCD/JICA Project (August 2007 to July 2012), the focus has been on empowerment of persons with intellectual disabilities, autism community, persons with hard of hearing and deafened, and knowledge management activities. The APCD/JICA Project has successfully established the ASEAN Autism Network (AAN), the Asia-Pacific Federation of the Hard of Hearing and Deafened (APFHD), the South Asian Disability Forum (SADF), the Central Asian Disability Forum (CADF) and the triangle network of persons with intellectual disabilities. APCD collaborated with JICA to co-organize the first Asia and Pacific CBR Congress. Currently, APCD is the Secretariat of the CBR Asia-Pacific Network. The World Bank and the Organization for Economic Co-operation and Development (OECD) recognized APCD as a top model project for South-to-South Cooperation. In 2008, APCD was honored to receive an award from JICA.

Because of JICA's successful technical cooperation, APCD can capably manage APCD activities. APCD has been developing cooperation and collaboration with the United Nations Economic and Social Commission for Asia and the Pacific (ESCAP), the World Health Organization (WHO), the Food and Agriculture Organization (FAO), the ASEAN Secretariat, the Nippon Foundation, Handicap International (HI), Christian Blind Mission (CBM) as well as other international non-profit organizations (INGOs).

Since JICA has contributed significantly in the area of CBR, APCD welcomes further collaboration to continue development of CBR and Community-Based Inclusive Development.

APCD sincerely appreciates JICA's contribution since its inception in 2002 until the present. Thank you.

**Akiie Ninomiya (Mr.)**  
Executive Director

On behalf of the Administration Department of APCD, may I take this opportunity to express my sincere appreciation to the Japan International Cooperation Agency (JICA) for the technical support and collaboration through APCD/JICA Project Phase 2. Special thanks for the counterpart training in which I was invited to attend on training facilities during 16-22 January 2011 in Japan. The training was very productive and fruitful.

Hopefully, the collaboration and support between JICA and APCD will be taken place again in the future as for the benefit of person with disabilities in the region.

**Nongluck Kisorawong (Ms.)**  
**Manager, Administration Department**

On behalf of the International Training Department, I sincerely appreciate the support and collaboration from the Japan International Cooperation Agency (JICA). Through the technical collaboration project between APCD and JICA, we could train more than 1,300 participants from 36 countries mainly in the Asia-Pacific region.

Our training process and mechanism has been strengthened to be a professional training agency with a focus on Community-based Rehabilitation (CBR) and Community-based Inclusive Development (CBID). As a result, APCD has been recognized by the World Health Organization (WHO) as one key organization to promote CBR/CBID movement in the Asia-Pacific region.

One of the main outcomes through the APCD/JICA Project Phase 2 is the establishment of self-advocate group of persons with intellectual disabilities in Cambodia, Myanmar and Thailand in the last 3 years.

We believe that collaboration between APCD and JICA could be one of models for international development since the process we are currently implementing is "south to south cooperation" by utilizing all resources within developing countries in Asia and the Pacific in order to support each other. APCD is willing to play a role as the facilitator and coordinator.

Even though the APCD/JICA Project Phase 2 is complete in 2012, APCD is determined to carry on implementing region activities and to promote a barrier-free society and empowerment of persons with disabilities in this region.

**Somchai Rungsilp (Mr.)**  
**Manager, International Training Department**

On behalf of the Information and Knowledge Management Department of APCD, I would like to express our sincere gratitude and appreciation to JICA through the APCD/JICA Project Phase 2 (August 2007 - July 2012), for supporting our organizational development.

Currently, the Department has been working on a variety of topics: publication, evidence-based documentation, websites, information accessibility, public relations activities such as 'Make the Right Real' campaign, development of key documents such as Recommendations and Statements through the regional workshops and conferences, business collaboration and other regional networking and collaboration initiatives.

I would also like to take the opportunity to thank Mr. Yoshio Niizeki, JICA Senior Advisor for his support in making our knowledge management activities more sustainable.

Our gratitude must go to those who supported us to attain knowledge and experiences that we have at this stage, and to those who have contributed to enhancing our performance, but who have not been mentioned individually.

**Ryuhei Sano (Mr.)**  
**Manager, Information and Knowledge Management Department**

On behalf of the Networking Department of APCD, we would like to express our sincere appreciation to APCD/JICA Project Phase 2 for the valuable support extended to APCD for the period 2007-2012 particularly in the development of different networks in Asia-Pacific Region. JICA Project Phase 2 has been instrumental in the establishment and development of networks such as the CBR Asia-Pacific Network, ASEAN Autism Network, South Asian Disability Forum, Central Asian Disability Forum, Asia-Pacific Federation of the Hard of Hearing and Deafened, and the Groups of Persons with Intellectual Disabilities in Thailand, Myanmar, and Cambodia.

The establishment of these networks means that not only will voices of persons with disabilities be represented more especially in regional level discussions, but also give them the opportunity to collaborate closely with one another and build coalitions with other stakeholders in the region. These coalitions will be one of the key aspects in sustaining the networks and a legacy that APCD/JICA Project Phase 2 can be proud of.

**Jasper Rom (Mr.)**  
**Manager, Networking Department**

---
